HAND-BOOK OF WISCONSIN.
"THIS is a little guide book to emigrants and travelers, and of much value to those who may incline to seek a home in the West. We believe were copies of the hand-book assiduously circulated in Scotland, Wisconsin would get, through its means, a large addition to its Scotch immigration."—*John O'Groats Journal*, Wick, Scotland.
"We have just received from Milwaukee, state of Wisconsin, America, a copy of a Hand-book, or Guide to that State, which is highly interesting and useful to emigrants, written and published by Mr. S. Chapman, who appears to be thoroughly acquainted with the state of the country, and has the interest of the emigrant at heart."—*Advertiser*, Brechan, Scotland. apr16

Hindooism and Heathenism.

THE Daily *American*—Hindoo organ—has two editorials of over two columns, this morning, of most ridiculous stuff, on the design and preparation of Mr. PFEIL, yesterday, to dispose of the remains of his deceased wife, by burning the body, in accordance with her oft-repeated request and with the Brahmin religion, which they both professed, in which it is difficult to say whether bigotry intolerance or silliness most predominates. The *American* can scarcely find epithets to give vent to its indignation, calls the act "a brutal and Moorish sacrifice," says "the man who could so far lose sight of law, of *reason*, of COUNTRY, of GOD, is either beneath the brute in reason, or cold stone in feeling," that "the fact that it had been *premeditated*—thought of for an instant—here in our city, causes the blood to boil with indignation, to burn with all the raging intensity of fire," that "it was a sight to make Christian blood run cold, and civilized and enlightened minds shrink with horror at the contemplation of the moral depravity that in broad daylight should attempt such an ungodly act," calls Mr. PFEIL "the infamous husband of the dead,"—"the moral monster," concludes its account by saying, "thus ended the most outrageous attack upon the morality of our community ever made—worse, if possible, than the shooting of the lamented ADAMS," demands a post mortem examination, and draws from the whole the following *moral*: "Let the subject be carried into our *business* relations; let none be afraid to talk of Americanism. Let us keep *down* the newly arrived flood of emigration until they understand our language and our laws, and until they can comprehend their utility, while their *children* are educated and become Americanized—then we are safe."

The *italics* and CAPS in the extracts above quoted are the *American's*. Mr. PFEIL and wife were Brahmins, of Russian birth, and of unexceptionable moral character She had been sick for three years, and directed by will as well as requested before dying, that her body should be burned after her death. It was part of her religion, and Mr. PFEIL was but obeying the dying injunctions of his wife prompted by her religious feelings, in preparing the funeral pyre. He violated no *law* in so doing, and the authorities acted *without law*, in preventing the execution of her wishes. They are justified, not by law, but by public sentiment, for their interference. We regret to see the attempt of Mr. PFEIL, but we deprecate far more the spirit displayed by the Hindoo organ. It is the spirit of the Spanish Inquisition—the same which exposed the *living* bodies of the early Christians to the faggot and the flames. The Romans and many of the early nations burned their dead, and preserved their ashes with as much reverence as we entomb our deceased friends. And this custom the *American* pronounces worse, if possible, than murder, and makes it a text to exhort our citizens "to keep *down* the emigrants," withhold from them the elective franchise, and make them feel the pressure of Know Nothingism in their "*business* relations." Heathenism is bad enough, but we submit that the Hindooism of the *American* stamp is still worse, and is a disgrace to the Christian name.

WORTH CONSIDERING.—The State expenses during the Administration of Gov. Farwell—1852-3—amounted to $287,384, while the expenses under the rule of Barstow for the years 1854-55 amount to $614,692, making a difference of $327,308 in favor of a Republican Administration. The people of Wisconsin will remember these *little* "cash accounts" about the sixth of November, and speak their disapprobation.

SOME MORE FIGURES.—The incidental expenses of the Barstow session of the Legislature of 1854, were 25,392. Of the last session 6,999, making a balance in favor of the last session, of $18,393. So much for Republican reform.—Let the people make it more complete by electing our whole State Ticket.

MASS MEETING.—A mass meeting of the citizens of Milwaukee has been called this evening at 7 o'clock, to give public expression to the feeling concerning the recent murder of H. C. ADAMS, and also to petition the Legislature to re-establish the death penalty.

We are heartily glad to learn that the Republicans of the 10th Senatorial District have nominated N. Z. Strong as their candidate for Senator. Mr. Strong is an able man and a true Republican and deserves the hearty support of every Republican in the District.

AN EXCELLENT PLAN.—It is said that a store will be opened in Boston, with a capital of $150,000, as an agency for the sale of flour at western prices, with the addition of the cost of transportation and incidental expenses. The Boston *Post* says: "some of the better class of our moneyed men are ready to advance sums for the purpose of establishing stores of this description."

Senator Walker and "Barstow."

In pursuance of a request made by the democratic Senatorial Convention, held at Waukesha, on the 6th inst., tendering him the nomination for State Senator from the 10th district, Senator Walker replies, and in accepting the nomination, makes the following home-thrust at "Barstow and the balance":

"I had hoped never again to enter the Political field, and such were my intentions; but seeing, as every man must see, the bold corruption that stalks about our State, in the peculations of the present State Authorities; and witnessing, as I have done, the unblushing sanction which was given to this corruption by the late State Convention, in nominating a portion of those Authorities for re-election. I have concluded to accede to the wishes of yourselves and the Convention you represent and to accept its nomination."

The Senator's views on the corruption of our present State Authorities harmonize exactly with those of numerous voters who have heretofore acted with the so-called democracy, but have determined, in the future, to break off from such a dishonorable alliance, and act with the Republican party. The people are becoming tired of the servility, baseness and corruption of hunkerish democracy.

Republican Senatorial Convention.

MESSRS. EDITORS:—At the Republican Senatorial Convention, held at Waukesha on the 18th day of Oct., A. D. 1855, to nominate a candidate for the Tenth Senatorial District, HIRAM SMITH was chosen Chairman and N. Z. STRONG Secretary.

On motion of W. D. Bacon, the Chair appointed a committe on Credentials, consisting of W. D. Bacon, C. J. Wiltse and Asa Hollister, who reported in attendance, E. M. Randall, W. D. Bacon, C. S. Hawley, from Waukesha; Jonathan Parsons, Hiram Smith, N. Z. Strong, from Eagle; J. S. Baldwin, Asa Hollister, Jonathan Putnam, from Vernon; John Wilson, C. J. Wiltse, W. H. Godfrey, from Mukwonago, and Hiram Hollister, from New Berlin.

The report was adopted and the Convention proceeded to ballot for a candidate for the Senate, resulting in the choice of NELSON Z. STRONG, of Eagle, when on motion of E. M. Randall, the nomination was made unanimous, and the Convention adjourned after adopting and reaffirming the declarations of the platform adopted at the recent Republican State Convention.

H. SMITH, Chairman.

N. Z. STRONG, Secretary.

AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE.—Among the distinguished foreigners who are expected to attend the next meeting of this association, in Albany, the *Journal* understands the celebrated German Chemist, Liebig, has been invited, and the Hon. James S. Wadsworth has contributed the sum of $500 towards defraying his expenses.

TELEGRAPH LINES IN CANADA.—Canada has now 3400 miles of Telegraph wire in operation. The last link of the Line, ending on Lake Huron, at Goderich, was finished last week and business commenced.

☞ Mr. Theodore Dwight, President of the New York Kansas League, says:—"Not a penny has ever been paid to induce any person to go to Kansas; and all that has been done is merely giving information, providing for safe and convenient traveling, and for advantageous locations. It is highly unjust to place such operations on a level with the irruptions of hired and armed men, residents of Missouri, to abuse the *bona fide* settlers, drive them from the polls, vote in their stead, and thus introduce one of the most despotic and bloody codes ever invented."

DANISH SOUND DUES.—The latest rumor, says the *Herald*, is that a special messenger has been sent to our minister at Copenhagen, to reopen negotiations, but that Marcy holds his ground for a repeal of the tolls, or for war.

Illness of Hon. C. C. Washburn.—On the 17th inst., Mr. Washburn, M. C., elect from the Western District of this State, was lying dangerously ill of congestion of the liver, at Galena. He had just recovered from an attack of billious fever, when on Saturday last he was suddenly and violently stricken down by a congestive chill, which, it was feared, would prove fatal.

Fond du Lac Freeman.—The Fond du Lac *Freeman* has entered upon the third year of its existence. It says: "Our circulation has constantly and steadily increased from the start.—We enter upon a new year with a list of subscribers, that for the most part are permanent patrons; and will stand by the *Freeman*, while it stands up for Freedom for all mankind."

Died Nobly.—Dr. R. M. Berry, of Memphis, Tenn., who died at Portsmouth Va., was on his way to the Crimea when the epedemic broke out in Virginia, and his humanity led him to turn aside from his proposed journey and aid the sick. He was a victim of his philanthropy but died nobly.

Rumors Concerning Ex-Gov. Reeder.—The Lexington, Mo., *Express* of Saturday last, published a report that Ex-Governor Reeder has been murdered at St. Joseph. The editor of the *Express*, after due inquiry, pronounced the report a hoax, but adds, however, that a rumor is in circulation at St. Joseph, that Ex-Governor Reeder has been engaged in a fight somewhere in the Territory, but no account of his being injured.

☞ The yellow fever has pretty much subsided at Norfolk. On the 16th inst. there were two new cases and six deaths, and on Wednesday no deaths were reported. Billious fever was raging badly there and Portsmouth.

California.—S. Latham has accepted the San Francisco Collectorship.

Dr. Birdsall has resigned the superintendence of the California mint.

Ship Seized.—The ship *Maury* was seized at New York on the 17th inst., on suspicion of having been fitted out as a privateer, to sail under Russian colors.

☞ The Manchester *Guardian* thinks gold will be exported from England to the United States during the winter and spring.

—From the first of January to the first of August, 1855, there were 320 murders and lynchings in Calafornia. Two persons were lawfully hanged.

Sandwich Islands.

The various volcanoes on the Island have been playing great freaks. The old crater of Kilauea is very active, its whole surface being covered with immense smoke and steam holes, or cones, which appear in the night like great fires. Fifty or sixty of these lights were counted on the evening of the 8th of August. In the south westerly portion of the crater is a lava lake of some three miles in circumference boiling and raging furiously. From its surface the liquid lava is continually jetted up to thirty or fifty feet, its color blood red. It makes a peculiar splashing, dead, heavy sound, something like yet very unlike the breaking of the surf on the shore. On the 14th of August a new eruption of a new volcane took place near Kilauea when the outpouring of the lava could be seen, and a river of it traced down the mountain side to the right for ten miles more till it was lost in the valley which lies between Mauna, Lon and Mauna Kea. The appearance of this new volcano, as seen, from Hilo, was very beautiful. Vesuvius never shone more brilliantly or afforded a greater pyrotechnic display.

The Tea Prospect.

The North China *Herald*, of the latest date, states that the export of tea from Shanghai, to the end of June is twenty-six millions of pounds more than was exported to Great Britain and the United States for a similar period the year before. On the other hand the reports from Canton are that the exportation of tea during the same time is *minus* some forty millions of pounds.

JAPAN.—The French and English were arranging a treaty with Japan. Russia had done so. Americans are not allowed to live in Japan unless in distress or shipwrecked.

In a letter to the San Francisco *Herald*, Messrs. Reed and Dougherty—American merchants, who intended establishing themselves at Hakodadi, in Japan, with the object of provisioning whaling vessels—complain that the Japanese have violated the spirit and letter of the treaty in every particular, and their statements are not without corroboration. They, with other Americans, reached Simoda, Island of Niphon, Japan, in the early part of the year, and during a residence there of two or three days were forced to submit to a most tyrannical and insulting kind of *surveillance*. From personal violence, however, they were luckily preserved by the appearance in port of Commodore Rogers, who espoused their cause and represented them to the Governor of Simoda, but apparently without any redress. Messrs. Reed and Dougherty then sailed for Hakodadi, but here they were not permitted to land at all, in direct contravention of the treaty. The Japanese authorities attempt to justify this singular conduct, by asserting that the treaty permitted Americans to reside *temporarily* in the country, which, according to their interpretation, means a period of four or five days. Messrs. Reed and Dougherty, they say, intended to take up their residence *permanently* at Hakodadi, and hence their action in the matter.

GIVE THEM ROPE.—Surely there will come an end to the gross outrages in Kanas by Missourians, thus liquorishly chronicled in the Squatter Sovereign, of the 21st:

"A. M. Finney, a noisy and troublesome free soiler, was badly beaten on Saturday last, in this city, by a pro slavery man whom he had insulted. Three other persons, entertaining free soil views, were knocked over and silenced on the same day. Abolitionists in this vicinity are in "hot water."

Green County.—The Monroe *Sentinel* says:

The harvest in Green County for the past year has been a bountiful one, and farmers are receiving good prices for their grain. Next year much more land will be tilled than the past year, and if the season is favorable, great quantities of produce will find their way to eastern markets from this county.

Business at Fond du Lac.—The Fond du Lac *Herald*, of the 10th inst., says:

"The weather the past week has been extremely favorable and, never since our sojourn here, have we seen business as active. There has been during the past week, no little excitemet in the wheat market, with large quantities coming in. At one warehouse alone (Gillett's) about 8,000 bushels were received.—What was received at the others we have no means of knowing, but presume that not less than 20,000 bushels of wheat was brought here last week at prices ranging from $ 1,05a1,15 for spring and $1,12 to 1,25 for winter."

A large days Work.—The Madison *Journal* of this morning says:

Geo. P. Delaplaine sold 600 feet fronting the park, on Wisconsin Avenue, last Wednesday for $16,000, Mr. Smith of Cincinnati is the purchaser.

Mr. Wm. Ripley sold a house and two lots, to a Southern gentleman for $7,500. Other business and house lots, were sold, to the amount of $20,000, to Messrs. Ogden Cornell and others of New York.

The number of of bushels of wheat marketed here was some 16,000. The amount of goods lumber, &c., sold estimated at $14,000, making over $75,000 which changed hands in one day.

Sidney C. Burton Poisned.—Sidney C. Burton so well known for his indefatigable pursuit of the Martha Washington, incendiaries was recently poisoned in New York. His wife promptly went to him and he has returned to his home West side, where we are gratified to know, he is recovering. The effects of the poison were like those of dropsy, and pails of water were drawn from Mr. Burton's legs. He will live to see some of the scoundrels who follow him punished.

☞ THE following beautiful lines are translated from a Persian poet:

I saw some handfuls of the rose in bloom,
With hands of grass suspended from a dome,
I said—"What means this worthless grass, that it
Should in the rose's fairy circle sit?"
Then wept the grass, and said—"Be still! and know
The kind their old associates ne'er forego,
Mine is no beauty, hue or fragrance, true!
But in the garden of my Lord I grew!"

☞ One of the best epigrams ever written was conjured up a good many years ago by—we don't know whom. *Quien sabe!* Here it is:

As Harry one day was abusing the sex
As things that in courtship but studied to vex,
And in marriage but sought to enthral;
"Never mind him," says Kate, "'tis a family whim,"
His FATHER agreed so exactly with him,
That he never would marry at all!"

FAT CATTLE.—Two droves of fat cattle from Janesville arrived this afternoon.

—The town election in Connecticut have gone against the Pierce anministration.

FURTHER BY THE ATLANTIC.

WE gave, yesterday, a brief summary of the news brought by the *Atlantic*, and now give such other interesting details as failed to reach us, concerning the various nations of Europe.

THE CRIMEA.—Sebastopol was certain to be blown up by the Allies, and mines were being sunk for the purpose.

Gortschakoff's army was threatened by large forces of the Allies from Eupatoria and Badair. On the 29th of September some Russians were defeated near Eupatoria by French cavalry, with a loss of 50 killed and 100 prisoners. The French lost 6 killed and 27 wounded.

Gortschakoff reports the third ineffectual movement had been made on his left flank.

A portion of the Allied fleet sailed on a secret expedition, supposed for Nicoloff or Odessa.

The Allies have mounted a large number of mortars at Sebastopol, preparatory to bombarding the Russian position on the north side.

The correspondent of the London News says the Russians are making preparations for the evacuation of the north side.

Gortschakoff has published a hopeful address to his soldiers. He admits the loss of from 500 to 1000 men per day for the 30 days previous to the close of the siege, but says in conclusion Sevastopol only enchained us to its walls. We are now free, and a new war commences.

RUSSIA.—We learn that the Czar has left Nicoloff for the Crimea. Various Russian and Prussian accounts state that the war is to be carried on with the greatest determination, and that the Crimea is to be defended to the last extremity. Gen'l Moravieff who is now in Asia, will take the place of Prince Gortschikoff, who is to become Minister of War.—Misconadries state the 193,000 men had been added to the military forces of Russia. A letter from St. Petersburgh states that the evening before the Emperor's departure for the South, a grand council was held, at which it was decided to carry on the war with the greatest energy. The restrictions in the importation of salt into Russia had been abolished.

GREECE.—A collision is anticipated between the western powers and the King of Greece, on account of the latter's Russian proclivities.

ITALY.—Italians are trying to get up a general rising against Austria. Mazzina, Ledin Rulin, and Kossuth have issued a joint appeal to all the suffering Nationalities they are to act together.

KARS.—Kars still held out, but its provisions are nearly exhausted. It was anticipated, however, that the snow would compel the Russians to retire.

The Russians had captured a Turkish convoy at Kars, with provisions for the garrison with 1,000 horses and 300 men.

TURKEY.—Accounts had been received from Constantinople to Sept. 24th. 13,000 men of the Anglo Turkish contingent forces had left for Varna, where they will take up their Winter quarters. Omar Pasha is contracting 50,000 men near Chef kabla part of frontier which the Turks took from the Russians at the commencement of the War.

DENMARK.—A new Danish Constitution was adopted at Copenhagen. Prince Ferdinand, uncle to the King, having refused his signature, was dismissed from the command of Zealand.

MISCELLANEOUS NEWS.—The *Atlantic* brings dates to Oct. 6th, one week later news than that brought by the *Canada*. In the British army Gen. Camberner, Earl of Stratford, Viscount Harding, were made field Marshals. An order for reinforcements for the Crimean army had been issued in Turin. The health of the King of Sardinia is improving. It is said communications are going on between Gortschakoff and Gen. Pellisseur. Nothing has transpired as to what they are about.

The food question is still serious in both France and Germany.

The Revenue returns of Great Britain show an increase of nearly £500,000 pounds sterling, owing chiefly to the additional income tax.

A letter from Revel estimates the squadron marine losses in that part of the Baltic last year at 40,000 tons.

Delisle, Bornvin & Co., merchants, London, have failed for 400,000 pounds, engaged principally in Canada trade.

AN EXTENSIVE PARK.—The New York people are perfecting the preliminaries for the opening of a park, a mile above the Crystal Palace, extending from 69th to 106th street, two and a third miles, and from from Fifth to Eighth avenue, about 3,000 feet. It is nearly twice as large as Hyde Park, in London. The Commissioners for assessing damage to the lands taken, &c., estimate the total amount at something over $5,000,000, but $1,675,329 of which is assessed upon adjacent property. The city are to raise the remaining funds necessary by a five per cent. loan, to run 45 years. Two years have nearly been occupied by the Commissioners in making the estimates, surveys, assessments, and examining titles to lands taken.

A Russian Dodge—*The Russian and Allied Fleets in the Pacific.*—The Northern Light has brought further intelligence of the movements and operations of the Allies in the North Pacific. It will be remembered that, according to our last advices, the squadron had sailed from Petropaulovski to the Amoor, but on arriving there found no trace of the enemy. By the accounts that have now reached us we learn that the British steamer Baracouta discovered the Russian fleet in the Bay of Castre and immediately set off to communicate the important news to the remainder of the fleet, leaving two frigates to blockade the port until they could be reinforced. The fleet arrived off Castre while a thick fog lay along the coast, and, when it cleared away, the Allies discovered to their surprise and chagrin that the Russians had again eluded their grasp.

The Rock Island Bridge.—The bridge over the Mississippi at Rock Island, Illinois, is rapidly progressing. Four of the piers are built, and the fifth and last will be ready for the superstructure in this month. It is thought that trains will cross in January or February.

A GREAT BEAR.—A bear was killed at Foxcroft, Maine, on Friday night last, by Erastus Bailey and Benjamin Brown. He weighed over four hundred pounds, and measured seven feet in length. He had made great havoc among the corn fields, and when fired at made some resistance.

Fearful Suffering and Peril.

Some of the episodes encountered during Dr. Kane's search, have wild interest. At one time it became necessary to send a fatigue party with provisions, to assist the main party under Dr. Kane in an attempted passage across Smith's Sound. This party was under the command of Mr. Brooks, first officer in the expedition. He was accompanied by Mr. Wilson and other volunteers. During their travel they found the ice completely impenetrable, and a snow drift at last sweeping wildly over them, and in the midst of a gale from the north, the thermometer, to their dismay, sunk to fifty seven degrees below zero. Human nature could not support the terrible cold. Four of the party, including Mr. Brooks, and Mr. Wilson, were prostrated with frozen feet, and with great difficulty three of their companions, after encountering great suffering, reached the ship and announced the condition of their comrades. Their chances of being rescued seemed extremely small. They were in the midst of a wilderness of snow, incapable of motion protected only by a canvass tent, and with no land-marks by which their position could be known. Even to drag these maimed men would have been under ordinary circumstances a work of difficulty, but to the slender party left at the ship, it seemed to be impossible. Dr. Kane, with the boldness and courage which justified the warm attachment felt towards him by all under his command, in less than one hour organized a rescuing party, leaving on board only those who were necessary to receive the sick, and started off in the teeth of a terrific gale, steering by compass, to rescue the sufferers. After nineteen hours' constant travel, during which two of the party fainted, and others required to be kept from sleep by force, they struck the trail of the lost party, and finally, staggering under their burdens, one by one reached the tent, which was almost hidden by the snow. The scene as Dr. Kane entered the tent, was effecting beyond description. The party burst out into tears.—A blubber fire was immediately built, pemmican cooked, and the party ate for the first time after leaving the vessel. Ice was also melted, they having been to this time without drink.—Worn out as they were, but four hours were allowed for the halt. The maimed of the frozen party were sewed up in Buffalo robes, placed on sledges and dragged along by their companions, Dr. Kane walking in advance, picking the track. Cold of the utmost severity again overtook them Bonsail and Morton, and even the Esquimax boy Hance, sunk upon the snow with sleep. It was only by force that they were aroused and made to proceed, as the cold seemed to have destroyed all conception of danger. A large bear met on their way, was fortunately scared off by Dr. Kane, by the simple waving of his hand. They reached the ship after a walk of sixty-two hours, still dragging their companions behind them, but insensible. Two of the number died of their injuries, and two others who underwent amputation are now restored to perfect health. The condition of those who dragged the sick, was most lamentable. Their memory for a time was entirely gone, and the ship, in the midst of muttering delirium, resembled an hospital.—The surgeon and one remaining attendant were in sole charge of the ship. In this state of semi madness the sick remained for two or three days, but afterwards they entirely recovered, and the party under Dr. Kane started three weeks afterwards and resumed their labors in the field.

California News by the Northern Light.

The *Northern Light* brings two weeks later intelligence from California, but we sum up the gist of her news briefly.

The Know Nothings have secured a majority in the State Legislature, which destroys Gwin's chances for the United States Senate, and probably secures the chocie of a Know Nothing in his stead.

The Governor elect had visited San Francisco and met with a most enthusiastic reception.

The returns of the vote on the prohibitory liquor law were not sufficiently complete to enable us to decide whether it had been adopted or not.

The anniversary of the admission of California into the Union was celebrated in San Francisco on the 10th of September in grand style.

The village of Grass Valley was almost entirely destroyed on the 14th of September, burning over an area of nearly thirty acres, and the town of Weaverville suffered a like calamnity on the 7th inst.

The aggregate loss in the former place was $460,000; in the latter $200,000.

Gold in the vicinity of Nevada has been found in immense in quantities and the claims in that vicinity were said to be in great demand invariably proving very remunerative.

Two more of the band of assasins, says the Marysville *Herald*, who committed the awful murders at Rancheria were tried by the people of that place on the 9th of September, found guilty and at eleven o'clock were hung.

Great preperations were being made for the Agricultural and Horticultural Fair Cattle Show and Industrial Exhibition, to be held at Sacramento on the 25th of September. Five thousand dollars, appropriated by the last Legislature, would be distributed in premiums.—Besides this a special fund had been raised from private sources for a grand festival tournament at which premiums would be awarded to ladies and gentlemen for skill in horsemanship.

EFFECTS OF THE REVOLUTION IN MEXICO.—The correspondent of the New Orleans, Delta, in its issue of the 5th, writes from the liberating army near Matamoras, under date of the 15th ult., as follows:

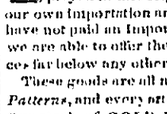

After all, the benefits received by the people will almost recompense them for what they suffered during Santa Anna's most cruel despotism, and after the formal organization of the first Congress, an effort will be made to declare him a traitor to the country, and his memory infamous after his death. The Legislature of Tamaulipas will favor the assassin Woll with a similar decree.

Effect of a Kansas Law.—It is stated that the postmaster at Atchison, Kansas, has returned all the copies of the Lawrence *Herald of Freedom* received at Atchison for subscribers, refusing to circulate them under the law passed by the Kansas Legislature forbidding the circulation of incendiary publications. The publishers of the *Herald* has written a statement of the case, and sent it to the Postmaster General.

DAILY DEMOCRAT.

C. D. BOOTH, Editor.

FRIDAY::OCT. 19.

The Hutchinson Family.—These world-renowned songsters are to give a concert, at Young's Hall, to-morrow evening. For wedding melody to sentiment, and for that kind of music which goes straight to the heart, and swells it with generous emotions, the Hutchinsons are unrivalled. Humanity becomes enlarged, purified and ennobled under the influence of their *songs*, and the audience always go away with greater reverence for man and with a more fervent desire for blessings on the race, than when they came. They are genial, witty, original, and unique, and will be greeted by a full house. They go from here to Waukesha, Whitewater, Madison, Janesville and Beloit, and will visit St. Paul in the course of their western tour.

Hats!—We looked in at friend SILKMAN'S, No. 152 East Water street, and were not a little surprised at the large and fine display of fall and winter style of hats and caps, there presented. When we entered, we thought Mr. S. had hats enough to supply all creation, but after remaining a few minutes, and witnessing the rapid disappearance of new hats with heads in them, we altered our previous conclusion—especially as we noticed one *greedy* individual, walking off with two hats under his arm, and looking as though he would like the third, if he dared to take it. Mr Silkman is an upright and honorable dealer, and has but *one* price for his goods.

Police Court.—J. S. and Thos. Mitchell were arraigned this forenoon for an assault and battery on Charlotte Pierce, but the case was continued till Nov. 3d, for want of material witness.

C. F. Rice was tried for assault and battery on Anna Auer and was found not guilty.

A warrant was issued against Matthew Dodward for an assault upon Phimelia Costor.

CIRCUIT COURT.—The case of Jacob Bowyer, for the seduction of Maria Foerck was concluded yesterday afternoon by a disagreement of the Jury. They were out three hours but were unable to find a verdict.

The case of the State vs. Francis Bell appeal from P. Shumway, Justice in Wauwatosa, for assault and battery upon John A. White was in progress this forenoon.

Warehouse fallen in and one man killed.—The warehouse of Catlin & Williamson, near the R. R. Depot, at Madison, occupied by Harris & Hibbard, gave way under the heavy pressure of grain contained in it, on Wednesday afternoon last, and all the grain—some 2,000 or 4,500 bushels—fell through two floors into the cellar. A man employed in the upper story, went down with the wheat and escaped uninjured. A second, named Edward McGarry, employed on the first floor, was buried by the avalanche and died of suffocation before he could be extricated. He leaves a wife and family.

Trotting Match.—A trotting match between Young Moscow and Cornecracker, takes place at the Cold spring trotting course this afternoon.

Metalic Burial Cases.—By an advertisement in another column it will be seen that Mr. CROUCH is prepared to furnish metalic burial cases &c., when required.

FIRE AT JANESVILLE.—The Janesville *Standard* of the 17th inst. says:

On last Wednsday night, about 10 o'clock, a fire was discovered in LAPPIN'S BLOCK. The wind was blowing a herfect hurricane at the time, and had it not been promptly discovered, immense damage would have ensued. The fire took place from some stoves which had been very improperly left on the roof by workmen who had been tinning it during the day. It was quenched by water carried in buckets to the top of the building.

The Magnetic Telegraph.—Rev. Mr. Chapin, in his speech at the Booksellers festival in New York, alluded to Professor Morse, as a man whose name is imperishable connected with magnetic telegraphs, and who, "if he lives but a few years longer will see its living nerve stretched around the globe, and feel the heart of China beating against his own."

☞ The Kenosha *Telegraph* says:

"We are told, that with 64 freight cars on the Racine & Mississippi Road, running twice a day to and from Fox River, they are unable to keep up with the business crowding upon the road. The depot at Burlington is all the time crowded with the products of the interior, which accumulates as fast as it it can be hauled off.

Two engines, the J. Vleit and D. H. Richards, for the Milwaukee and Horicon road, and a number of freight cars for the Racine and Mississippi road, passed down over the Lake Shore Road, on Sunday last."

It also says:

"Mr. A. Judd exhibited to us an apple, grown on his farm two miles south of Antioch, fourteen inches in circumference and weighing 20¼ ounces. The apple was healthy and sound, and was one of forty similar picked from a tree but little thicker than the arm."

LEGISLATIVE.—The Madison *Journal* says:

The Republican Convention held at Baraboo last Saturday nominated D. K Noys of the *Republic* for the Assembly. The Democratic Convention held the same day at the same place nominated J. H. Pratt of Baraboo.

AYER'S
PILLS.

FOR ALL THE PURPOSES OF A
FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions see wrapper on the Box.

AYER'S
CHERRY PECTORAL,
For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOARSENESS, &c.; and for CHILDREN it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

W. L. HOPKINS & Bro., H. Bosworth & Sons, Druggists in Milwaukee, and by dealers generally throut the country.

NOTICE.

Whereas, Georgia and Tennessee money has been put in circulation in this State by various parties who are supposed to be the individual owners of the Banks from whence said money is issued. And, whereas, the bill-holder has no ready means of knowing the intrinsic value of said circulation. And, whereas, we have no commerce or business connection with the district of country from whence the said issues come, rendering it difficult to convert the same by sending it home. And, whereas, by its circulation among us it has the effect of *discouraging the increase and circulation of Banking Capital* under our own Banking Law, as well as the money of the Eastern States, with whom we have a direct commerce. And, whereas, the people of this State have had a good deal of dislike at receiving currency from so distant a part of the country between which and this there exist no natural business relations;

Therefore, The undersigned Banks and Bankers in Milwaukee hereby give notice that on and after Monday, the 17th inst., they will decline receiving the currency of Tennessee and Georgia Banks.

AT NO. 175 EAST WATER STREET.

THE SUBSCRIBER IS NOW RECEIVING AN EXtensive stock of superb Pianos, and other Musical Instruments, selected by himself from the best manufactories in the United States, and warranted equal to any in the world.
He would particularly invite the attention of the Musical public to an **Entire New Style of Piano Forte,** invented and perfected by the late Jonas Chickering, and called the Parlor Grand, or Cecilian Piano.—This is probably the most perfect instrument of the Piano kind ever invented, combining as it does all the peculiarities of the full Grand Piano, without its disadvantages in regard to size. Also, several of Boardman & Gray's **Improved Scale Pianos,** with their new and ingenious invention—the Patent Corrugated Sounding board, universally admired and recommended by the musical profession. Twelve Gold Medals and Premiums have been awarded to these instruments within a few years past, and the demand for them from all parts of the world is entirely unprecedented.
☞ Every instrument sold by the subscriber has either been made expressly for him, or has been carefully selected from large stocks. He is therefore enabled to warrant his Piano Fortes in every particular, as being excelled by none.
☞ The subscriber is the only agent in this city for the following Piano makers:
CHICKERING & SONS, Boston.
BOARDMAN & GRAY, Albany.
W. P. EMERSON, Boston.
FIRTH, POND & CO., New York.
☞ Prices the same as if purchased directly from the Manufacturers, and the money refunded if the Instrument does not prove satisfactory.
☞ The lovers of Music are invited to examine this elegant stock of Musical instruments.

PROCLAMATION BY THE GOVERNOR.
WHEREAS, within the few months last passed, there have been by one or more malignant persons obstructions placed upon the track of the Milwaukee and Mississippi Railroad, thereby endangering the lives of passengers and others traveling over said Road, and, whereas, the safety of the public requires the apprehension and punishment of all such persons so offending:—*Therefore,* I, WILLIAM A. BARSTOW, Governor of the State of Wisconsin, in pursuance of the power vested in me by Section 3, Chapter 9, of the Revised Statutes, do hereby offer the reward of
Five Hundred Dollars!
For the apprehension and delivery or conviction of any perpetrator or perpetrators of any such offense as is above herein referred to, wherever the same may be committed on any Railroad within the limits of the State of Wisconsin.
In Testimony Whereof I have hereunto subscribed my name, and caused the Great Seal of the State of Wisconsin to be affixed.
Done at Madison, this 3d day of September A. D. 1855.

CHICAGO TYPE FOUNDRY,
AND
PRINTERS' WAREHOUSE!
43 FRANKLIN STREET, CHICAGO.
THE SUBSCRIBER HAS THE PLEASURE OF announcing that he has made arrangements for establishing a
TYPE FOUNDRY,
AND
PRINTERS' WAREHOUSE!
IN CHICAGO.
Such an establishment has been long wanted, and has been earnestly solicited by Western Printers.
The advantage of a Foundry, in connection with a Printers' Warehouse, which can supply large or small ordes and "sorts," without any delay, is too well known to Printers to need comment.
A large and well assorted stock from the celebrated and long established Foundry of
WHITE & CO., NEW YORK,
Will be constantly on hand, embracing all the varieties of News, Ornamental and Jobbing Type, with Borders, Cuts, &c.
An arrangement has been made with the well-known establishment of
R. HOE & CO.,
For a large stock of presses and printers' materials.
Inks in every variety, for plain or fancy printing, from the manufactory of Collins & Lightbody, whose Inks bear a high reputation in the eastern cities.
With the arrangements thus made,
The Chicago Type Foundry!
Is prepared to offer to Western Printers every article required in a Newspaper or Job Office of the best quality, and upon as favorable terms as any Foundry in the United States. C. G. SHEFFIELD, Agent.

THE OLD EAGLE GOING IT WITH A RUSH
The Eagle
STEAM FOUNDRY
OF
TURTON & SERCOMB,
296, 298, 300, 302 and 304, West Water Street
IS still in full blast, working day and night to supply the daily increasing wants of the Badger and other States.
In order the better to do this the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planeing Machine or Shaping Machine, three Lathes, and a machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to their former facilities for the successful carrying on of the Foundry, Machine, Engine, and Blacksmithing business. They never were in a better position for doing business, and defy competition in any department.
In regard to the character of the work got up by this,
The Oldest Establishment in the State,
the Proprietors refer to that in successful operation thro' the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man. They continue to manufacture
Flour and Saw Mill Gearing and Steam Engines, on the most approved principle.
They have always on hand a large stock of BRASS WORK, such as *Guage and Cylinder Cocks, Oil Cups & Cocks, and Steam Whistles.* Also *Turton's Files,* which they will sell at the lowest cash prices.
They are also Agents for *Eastman's Patent Steam Guages,* which are well worth the attention of all who use Steam Engines.
In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.
Their motto is, "*Excelsior.*"
THOS. TURTON, } PROPRIETORS
JOHN SERCOMB, }
P. S. To those friends who have forgotten they owe us, we would say, hand over the dimes, we want cash to pay the printer.

GREAT BROAD GUAGE RAILROAD ROUTE!
FROM BUFFALO TO NEW YORK CITY, DIRECT
☞ This is as cheap, as quick, shorter, safer, less litiging, and much more interesting and delightful, than any other route between the two points. And it is believed that the traveler of the South and Southwest is only to be made acquainted with it, and its connections with the various lines of steamboats and railroads from the West, centering in Buffalo, to secure for it his favor and patronage. Besides, a view of the Portage Bridge, the wonder and admiration of all who have seen it, the traveler over this route is presented with scenes constantly changing, the most beautiful and sublime, lovely and picturesque in the State of New York. The well cultivated farm, the dense forest, the gently flowing river, the rushing cataract, the broad and fertile valley, the huge and lofty mountain, the quiet hamlet, and the busy, bustling, city-like village meet the eye in rapid succession, to interest, gratify and render the trip both pleasing and delightful
☞ FARE AS LOW AS BY ANY OTHER ROUTE.
